

Medical Care Systems

Reference project,
Clinical Centre of the Johann Wolfgang Goethe
University, Frankfurt am Main

Interdisciplinary use in a separate building:

expansion and conversion of building 23 of the University Hospital with 14 operating theatres and 6 treatment rooms. Capacity for approx. 44,000 in-patients and 200,000 out-patients per year.

University Hospital Frankfurt: Function in Top Form.

Creating **optimal processes** through a better structuring of rooms was the objective in the conversion and new building of house 23 of the Clinical Centre of the Johann Wolfgang Goethe-University in Frankfurt am Main. As a response to the changes in medical examination and treatment procedures, all **functional areas** were transferred from the main building to the new one. Underground corridors connecting hospital wards to the new building ensure short transport paths. A clinical centre was created that appeals to all its users.

Best design with a high level of performance: with approx. 270 cabinet units of powder-coated sheet steel, including all installation devices and additional components, Medical Care Systems of BLANCO CS provided the **entire furnishings** for the bare functional building in all areas. Particularly in the **central sterilisation** unit, BLANCO packing tables and BLANCO cabinet units helped to create ergonomic and staff-friendly workplaces.

Optimal hygiene with good design: **Medical Care Systems** is setting standards for the future.

Plaster room

Cabinet units with

- plaster bench unit with stainless steel workbench
- plaster settling tank in base cabinet

BLANCO

Central sterilisation unit
Packing tables for packing sterile material

Central sterilisation unit
Output station for supplying departments

Central sterilisation unit
Sterile material preparation unit made of stainless steel

Induction room for emergency op

Cabinet combination with

- tall cabinets
- base and wall-mounted cabinets
- medicine refrigerator
- medicine safe

Shock room

Cabinet unit with

- refrigerator and freezer unit
- ceiling-high facing

Radiology

Cabinet unit with

- catheter drawer
- stack cabinets with ladder frame

REFERENCE

Medical Care Systems

Project: Expansion and renovation of building 23 of the Clinical Centre of the Johann Wolfgang Goethe University, Frankfurt am Main

New building: Building 23 – Expansion and renovation of the semi-basement

Client: State of Hessen represented by the Building Management of Hessen

Project management: Teamplan

Construction time: 2 years (completion autumn 2007)
